The final section enabled pupils to make additional comments about their school. Below are their comments.

I am super happy with the support and the teachers in this school and my friends

Amazing school with perfect teachers who can adjust their focus in the blink of an eye

What I like about school is that they support you no matter what

One of the best schools I have ever seen - I could not be more grateful for the absolute excellence the whole school provides.

It's too green and we have no music teacher which is annoying

My friends

I am cold outside of school

[Teacher] is the best.

When will we have the sensory room open for students to go in? I have someone I can talk to if I need to

I think that James Marks Academy is a very good school as it supports everybody's needs and gives challenging as well engaging lessons for everyone. I feel very supported! 10/10 school

It is amazing and everyone is so nice I feel really happy here

This is the best school in the World
